Andl (pronounced: /æ̃n-dəl/), is a multi-talented artist who delves in various art forms and designs including acrylic art and painting, digital art, design, marquage and art toy-making.

Known for his attention to detail and experimental methods, Andl has been commissioned to work on various projects for both private and commercial clients.

“Lucid”, his iconic design that represents clarity in chaos, is inspired by the American rap culture and the ideals of individualistic freedom to express their own identities, regardless of societal constructs. Possessing subtle characteristics of playfulness and childlike innocence, Lucid serves as a reminder for adults to remain childlike and for the young ones to be unafraid.

WORK EXPERIENCE

Kaiva Pte. Ltd. - Branding/Concept Artist | MAR 2021 - NOV 2021

- Responsible for brand management that includes designing, analyzing and presenting to internal stakeholders on logos, marketing concepts and product idealization for buy-ins.
